Summary

I am a B.Tech student in Computer Science and Engineering at Delhi Institute of Engineering and Technology (DIET), Meerut, Uttar Pradesh. I am passionate about technology and have strong skills in programming, data structures, algorithms, and software development. I am also proficient in various programming languages, including Java, and C++. I am eager to learn new technologies and apply my skills to solve real-world problems.

Education

2022 - 2026

Delhi Institute of Engineering and Technology (DIET), Meerut, Uttar Pradesh

Graduation • Sustainable Architecture • Computer Science And Engineering

Percentage - 80% • CGPA - 8.25

Pursuing a Bachelor of Technology in Computer Science and Engineering at Delhi Institute of Engineering and Technology (DIET), Meerut, Uttar Pradesh. Enrolled in 2022, expected completion in 2026.

Certification

Journey to Cloud: Envisioning Your Solution

[Certificate Link](#)

I completed the Journey to Cloud: Envisioning Your Solution certification from IBM Skill Build in July 2025, which enhanced my understanding of cloud computing concepts and solution design. This knowledge complements my skills in system architecture and supports my ability to develop innovative cloud-based strategies.

Getting Started with Artificial Intelligence

[Certificate Link](#)

I obtained the Getting Started with Artificial Intelligence certificate from IBM Skill Build in July 2025, which strengthens my understanding of AI concepts. This certification supports my foundational knowledge and provides practical skills applicable to my work experience, enhancing my ability to contribute to innovative projects.

Skills

- Problem Solving
- HTML
- CSS
- Javascript
- Java
- Python

Projects

Portfolio Website

📅 Mar 2025 – Mar 2025

🔗 [Project Link](#)

This project showcases my front-end development skills, including HTML, CSS, and JavaScript. I designed and built a responsive website to display my work and experience. The project required me to utilize my problem-solving abilities to overcome technical challenges and ensure a user-friendly experience. I also implemented best practices for accessibility and SEO optimization. This project demonstrates my ability to independently manage a project from conception to completion.

Travel Planner Agent

📅 Jul 2025 – Aug 2025

🔗 [Project Link](#)

An AI-powered assistant built using IBM Cloud Lite and IBM Granite. It helps users plan trips intelligently by: • Suggesting destinations based on preferences and budget • Generating personalized itineraries • Recommending transport and accommodations • Integrating real-time weather, maps, and alerts.
